EDUCATION

Texas Christian University *Fort Worth, TX* *Expected May 2027*

B.S. Digital Culture & Data Analytics; B.S. Fashion Merchandising; Minor in Writing

- GPA: 3.93 | Dean's Honor List (2023–2026) | Runner-up, AI Forward: AI Innovation Competition for Supply Chain Sales

University of Sydney — Study Abroad *Sydney, NSW, Australia* *Jan 2025 – Jul 2025*

- Coursework: Design Computing, Information Visualization Senior Studio, Sustainable Community Strategic Project

Guilin University of Electronic Technology *Guangxi, China* *Jul 2026*

- Intellectual Property & Digital Governance Certification

TECHNICAL SKILLS

Programming & Data: Python (Pandas, scikit-learn), SQL, Stata, VBA, Excel (Advanced)
Visualization & BI: Power BI, Tableau, ArcGIS, D3.js, Data Storytelling, Dashboarding
Analytics Methods: Machine Learning, NLP & Text Mining, Econometrics, Statistical Regression
Product Development: CLO3D, 3D modeling & printing, Adobe Creative Suite, tech packs, textile analysis, merchandise planning, prototyping
Languages: Vietnamese (Native), English (Fluent), French (DELF B1), Mandarin (HSK 3, Verbal)

PROFESSIONAL EXPERIENCE

TCU Institute of Behavioral Research | Data Management Assistant *Aug 2025 – Present*

- Manage the data lifecycle for 8 studies (1000+ records each), with validation, cleaning, and reporting via Excel, Python, and Power BI
- Built reusable Python/VBA cleaning pipelines tailored to each study, cutting processing from 5 days to 30 min per dataset
- Delivered 5 Power BI/Tableau dashboards that let researchers monitor survey responses and track study progress in real time

Garco 10 JSC. | Production Merchandising Intern *May 2026 – Aug 2026*

- Tracked production from sampling to dye lab to shipment for 90+ orders across 7 international bridge-tier brands
- Engineered Python scripts automating data entry for lab dips, order tracking, and billing, cutting task time 85%+ for 30 colleagues
- Audited over 80 samples and shipments against tech packs, Incoterms, and POs, catching 20 discrepancies before they reached clients

Vogue Australia | Digital Editorial Intern *May 2025 – Jul 2025*

- Wrote and edited 28 published digital articles across news, evergreens, and commercial listicles, including 2 featured news stories
- Used Google Trends, CMS analytics, and social data to pitch trend-led stories for APAC readers, with 4 pitches commissioned
- Re-tagged 2,000+ archived articles within a 900+ tag metadata system, improving search and SEO discoverability

Patagonia | Data Visualization Specialist *Oct 2024 – Apr 2025*

- Built and improved UI/UX for 2 interactive ArcGIS StoryMaps for activism titles, adopted into Patagonia's official promotional strategy
- Sourced, cleaned, and engineered environmental and agricultural datasets for original geospatial analysis in ArcGIS and Python
- Proposed the concepts and built the demos for both flagship visualizations, balancing data availability, engagement, and brand standards

Tinhvan Software JSC. | Data Analyst Intern *May 2024 – Aug 2024*

- Built a weighted Decision Tree/GBM ensemble predicting oil saturation from 300K+ reservoir records, reaching 95% accuracy
- Engineered 14 features from EDA and geological domain research, improving model consistency against theoretical expectations
- Documented and presented the methodology to engineering and client teams, enabling reuse in a government application

PROJECTS

Contingent Valuation of Chèo Performance Art — Undergraduate Thesis *Aug 2026 – Present*

- Lead an empirical study of 458 observations using the Contingent Valuation Method to quantify visitors' total value of intangible cultural heritage, establishing a data-driven basis for conservation and promotional investments within the Trang An World Heritage Complex

EY Consulting x USyd — Interdisciplinary Community Project *Jan 2025 – Jun 2025*

- Analyzed behavioral and facility data to identify drivers of campus resources' low student engagement
- Synthesized findings and financial modeling into a 40-page report advocating for a centralized digital solution with targeted incentives

Building Energy Analytics Dashboard — Information Visualization Senior Design Studio *Jan 2025 – Jun 2025*

- Built an interactive Plotly.js/D3.js dashboard on 100K+ five-minute sensor readings to show HVAC energy vs. thermal comfort trade-offs
- Engineered an HVAC effort score and a 4-scenario model, showing that work hours often spent energy on already-comfortable spaces
- Redesigned after usability tests with 9 users, adding guided demos, a comfort band, and clearer time context

Geospatial Technology in Fashion: Finding Circularities — Concept Paper *Aug 2024 – Nov 2024*

- Mapped the supply chain of fashion industrial clusters by integrating spatial data from Overpass API and ArcGIS to visualize and assess regional capacity for circular economies, and used Manchester city fashion facilities as a case study

LEADERSHIP & COMMUNITY ENGAGEMENT

TCU Fine Arts Committee for Connection Culture, **Student Representative** (Aug 2025–May 2026): Evaluated event and program proposals for feasibility and budget allocation; mentored student teams and supported execution for events with over 100 attendees.

The Art Galleries at TCU, **Gallery Assistant** (Aug 2024 – Oct 2025): Led guided tours for 50+ weekly visitors, interpreting exhibitions for diverse audiences and strengthening public engagement with visual art and cultural narratives. Installed monthly art exhibitions.
